"The change was immediately noticeable with the upgrade. The day after it happened, customers kept commenting on how great it looked in the store. The lights make everything look nicer and have increased traffic into the store"

Romeo  
(Cashier)

"Customers definitely noticed the change in lighting. The increased level of light in the store was amazing! Products were easier to see and the light made the bottles look a lot nicer. Installation was quick and easy and the store has a much cleaner look"

Bill  
(Store Manager)

"The lights look great! We're saving money on our electric bill and no longer have to worry about ballasts or lamps going out. Plus, the bulbs last for 65,000 hours which means we're set for a while. Installation was done in a couple of hours well worth it"

Richard  
(Owner)

**DIRECT LED REPLACEMENT FOR ANY FLUORESCENT TUBE**

Save 60% on your lighting bills and get up to 70% off the cost of implementation!

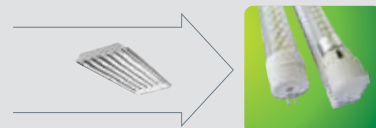

T8 LED Tube

- Proprietary driverless LED tube technology
- Highest lumens per watt in the industry to finally produce light that is as bright as a brand new fluorescent (180 lumens/watt)

U-Shape LED Tube

- Lasts 2-3X longer than a fluorescent; 5% lumen depreciation over lifespan (65,000 hours)

T5 HO LED Tubes

- 2ft to 8ft tubes available
- Compatible with motion, time and light sensors as well as dimmers

T8 Dual Shine Tube 360° Beam Angle

- UL & DLC listed; qualifies for most rebates
- Instant on & off

**WHY CHANGE THE ENTIRE FIXTURE WHEN YOU CAN JUST CHANGE THE LAMP?**
